

BOBBY WONDER ACTIVITIES

A sidekick from another planet! - Create your ideal sidekick. What planet is it from? what does your sidekick look like? Does it have any special skills or interests? Does it have any weird names for things? How does it communicate with you? Use the worksheet attached to tell us all about your new best good buddy.

Blananas! - On florp, bananas are called blananas and marshmallows are called flarshmarflers. Even on earth, people from all over the world call bananas different things in different languages. You can use Google Translate to see what bananas are called in different places across the globe. France, Germany, Spain, Japan, you name it! Then pick your favorite and put sticky notes around your house, naming objects in that language. How many words can you learn in this new language?

Planet Project - Sometimes truth is stranger than fiction! Our solar system is pretty cool. Take some time to research one of the planets in our solar system. Create a research project that you can present to your class about what you've learned. This can be a powerpoint, a video, a poster, or even an essay.

Write your own play! - Grabstack is a director, a producer, a director!! What inanimate objects would act in your written play? What would the play be about?

NAME: _____

DATE: _____

MY IDEAL SIDEKICK

NAME: _____

PLANET I AM FROM: _____

HOW OLD I AM: _____

FAVORITE SNACK: _____

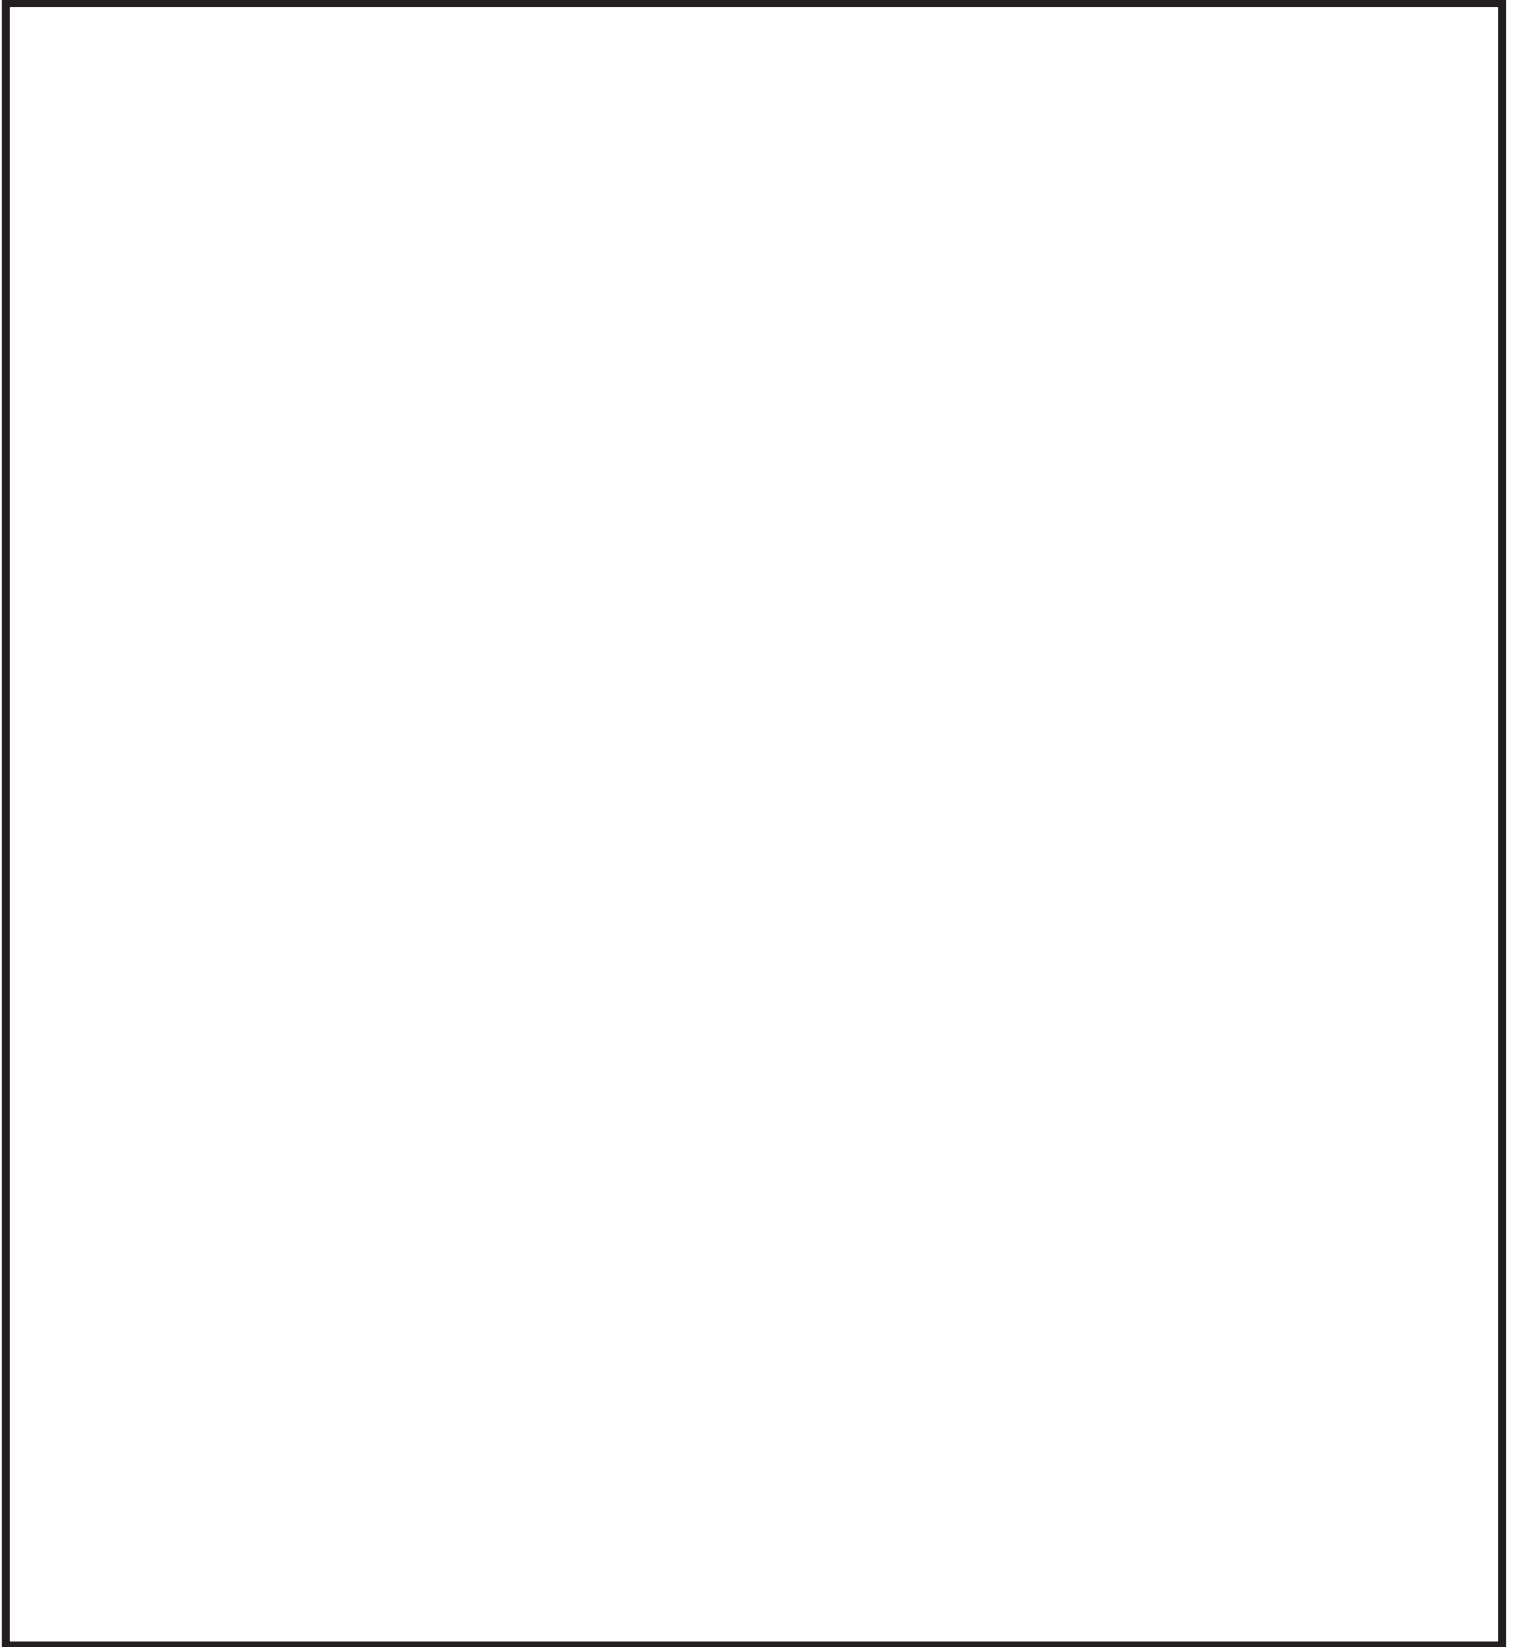

FAVORITE HOBBY: _____

SOMETHING I HATE: _____
